Its primary goal is to provide you with a fast and easy solution for stock analysis and management. You can launch MetaStock from any application, from a shortcut on your desktop or from the Start menu.Q: Subs to transition to new line or page I've got a list that appears with a hover. When hovered the whole thing drops down to show a div that opens. It looks good, but the reason I'm using it is to make it so the user can just hit a button and open it. The two problems I've found is that the div opens onto the next line and it needs to go to the next page. Any ideas as to how I'd accomplish this? JSFiddle of the problem HTML 1cb139a0ed
